CSE Case Number: 1130443485
Activity Number: 67510629
Parent ordered to receive support: Lizabeth L Lotsey
Parent ordered to pay support: Gary L Woodroffe

We received a request to review the support order or are required to do so because your child(ren) receives cash assistance. We have finished the support order review that shows the support order amount should go down to \$241.98 per month.

Your support order was entered by the Circuit Court. We will ask our attorney to file a petition and Proposed Modified Support Order with the Circuit Court based on our review. If filed, you and the other party will receive a copy of our petition and the proposed order. If you did not request review of the support order, you will be personally served with the petition and proposed order. If you requested the review, you will receive the petition and proposed order by regular mail. You will have 30 calendar days from either the date you were served with the petition and proposed order, or the date the petition and proposed order was mailed to you, to request a court hearing. Otherwise the court may modify the support order in accordance with the terms of the Proposed Modified Support Order without a hearing.

Note: Our authority to file a petition to modify a support order is limited by Florida law.

We may only seek to modify support for the parent who is ordered to pay if:

- (1) Either party or the child is receiving public assistance; or
- (2) There is nonpayment and we are enforcing the order for the parent or caregiver who is owed support.
